Re: Enviro-Bond Disposal

Dear Mr. Baubeault:

On behalf of the SEMASS Partnership, as it relates to the SEMASS Resource Recovery Facility ("Facility"), we have reviewed the material supplied by Lakefront Enterprises and have concluded that virgin petroleum absorbed in Enviro-Bond can be accepted for disposal at the Facility. Please note that this material can only be accepted on a case by case basis and in accordance with our authorization from the Massachusetts Department of Environmental Protection (DEP) granted in their letter of June 8, 1990. As the authorization from the DEP limits the quantity of material to be received per year, SEMASS reserves the right to refuse material if we believe that it could result in exceeding our annual limit.

Should you have any other questions or require further information, please contact me at 508-291-4400.

Sincerely,

Roy Piatelli
Environmental Engineer
